ABOUT US

Classic Wire Products®, incorporated in the year 1988, is an ISO certified brand, having a 30+ years of glorious experience in manufacturing of various Aluminium wires. We have developed a reputation for quality & reliability in the market.

We employ advanced German technology and use electrolytic grade Aluminium which is upto 99.9% pure in order to deliver the best possible quality in affordable prices.

We also cater to the needs of our customers by offering a variety of excellent packaging options and different classes of wire insulations.

SINCE 1988

Classic Wire Products® was incorporated in 1988 and has 30+ years of experience in the field.

We focus on having long lasting, strong & friendly customer relations.

QUALITY STANDARDS

We are an ISO certified brand and our products outperform even the ISI specified standards in technical aspects. We only use electrolytic grade Aluminium (upto 99.9% pure)

MODERNISATION

With over 30 years in the market, we keep our manufacturing unit in pace with the latest technological advancements and use German technology to ensure the best quality.

Classic Wire Products® is also committed towards protecting and preserving the environment.

In order to minimise plastic use, we offer the option for returning the winding spools (parallel and taper) on mutually agreed terms.

PRODUCT RANGE

Classic Wire Products® offer a variety of Aluminium winding wires and metallizing wire in different sizes, specifications and packaging options.

ENAMELLED ALUMINIUM WIRE

- 0.2 mm - 2.95 mm
- 99.6% - 99.9% Pure Aluminium (Electrolytic Grade)
- Classes of Insulation:
 - Polyester, Modified Polyester, Polyesterimide
- Taper Spool (PT5 & PT10)
- Parallel Spool (as per DIN Standards)

METALLIZING ALUMINIUM WIRE

- Various Sizes (as required)
- 99.5% - 99.8% Pure Aluminium (Metallizing Grade)
- Spools & Bundles

DPC ALUMINIUM WIRE

- 1.00 mm - 3.00 mm
- 99.6% - 99.9% Pure Aluminium (Electrolytic Grade)
- Insulation:
 - Electrolytic Grade Paper
- Several Packaging Options

BARE ALUMINIUM WIRE

- 1.00 mm - 4.00 mm
- 99.5% - 99.9% Pure Aluminium (Electrolytic Grade)
- Spools & Bundles

WHY CHOOSE US?

Classic Wire Products® has a reputation, for over 30 years, of offering the best quality Aluminium wire products and having long-lasting relationships with customers by ensuring our customers get their specified products and grow along with us.

SINCE 1988

Classic Wire Products® has been delighting its customers for over 30 years with a vast range of Aluminium Wire products of the best quality in competitive prices.

QUALITY STANDARDS

Classic Wire Products® is an ISO 9001:2015 certified brand and offer products as per Indian Standards (IS) 13730, 13778 & 6162. Our products outperform even the IS in certain technical fronts.

CUSTOMER SATISFACTION

We are committed to offer our customers what we claim and offer only high quality products which help them enhance their brand value and increase efficiency of their manufacturing units. We value their feedbacks and suggestions and take them into account.

MODERNISATION AND RAW MATERIAL

We always keep our manufacturing unit equipped with advanced German Technology and have heavily researched and developed Aluminium as a viable alternative to Copper as winding wire and have succeeded in doing so. We use only pure Aluminium (99.6% - 99.9%) to ensure an unmatched quality.
